

FDA SUMMER ACTIVITIES 2020

Math Adventures

Fee: \$50.00

Instructor: Regina Parker

Max # of students: 12

Students will explore multiplication, division, addition, and subtraction of whole numbers. They will also learn how to use English and Metric rulers. Students will review basic concepts, play games, and challenge their thinking skills. Grades rising 3rd-5th

Dates: July 6th -9th Time: 8:00-10:00 **Cost \$50**

Math Explorations

Fee: \$50.00

Instructor: Regina Parker

Max. # of students: 12

Students will explore multiplication, division, addition, and subtraction of decimals and fractions. They will soar through perimeter and area of squares, triangles, rectangles, parallelograms, and circles. Students will review and challenge their thinking skills with math team problems. Grades rising 5th- 7th

Dates: July 6th-9th Time: 12:45-2:45 **Cost \$50**

MAD SCIENCE

Fee: \$50.00

Supply Fee: \$5.00

Instructor: Regina Parker

Max # of Students: 12

Students will explore the scientific method through hands-on activities. Science will come to life during lab experiments. Grades- rising 3rd -7th

Dates: July 6th -9th Time: 10:15-12:15 **Cost \$60**

Book Reports Rock!

Fee: \$50

Instructor: Michaela Gardner

Min. # 6

Students will read Mr. Popper's Penguins, and they will write book reports and draw illustrations. Take the frustration away and let me help your child. We will have a fun week of activities with this book.

Dates: July 20th-23rd

Time: 12:30-2:30

First Grade Readiness:**Fee: \$60 each week****Instructor: Ellinor Nelson****Min. # of students 10**

Due to my concern over how much the children forget over the summer, I have decided to offer a new workshop. We will cover math skills, sight words, word skills, writing and reading. I will have a schedule similar to a regular K5 morning. This should benefit the children entering first grade and help them review and improve the skills they have learned in K5. I will provide the children with a morning snack. I will have one week in July.

July 20-23**9:00 a.m. - 1:00 p.m.**

Rising 1st Grade Students

Math is Marvelous**Instructor: Ann Blackmon**

Fee: \$50.00

Max. # of Students: 15 (Must have 6)

Math really is marvelous! In this workshop, students entering the second grade will review math skills. Addition and subtraction families will be studied, and participants will make addition and subtraction flashcards. Place value, money, time, graphs, measurement, symmetry, and other concepts will be reviewed. This will be a math workshop full of fun activities and exciting review. There will even be a math art activity or two!!!

Date: July 13-17

Time: 8:30-10:30

Students: Rising 2nd graders

(Students entering 2nd grade)

Science is Sensational**Instructor: Ann Blackmon**

Fee: \$50.00

Max. # of Students: 15 (Must have 6)

Calling all students coming into second grade! Let's study some sensational science!!! In this activity packed workshop, we will study how plants grow and change. Then, we will plant a plant. We will make a dinosaur craft as we study the earth long ago. We will observe the weather and learn about clouds when we review space and weather. More experiments will be conducted on the day we discuss and explore matter. During our "energy in motion" day, we will go out and run off some energy as we conduct experiments with Hot Wheels and balls. Come and enjoy some truly sensational science.

Date: July 13-17

Time: 10:30-12:30

Students: Rising 2nd graders

(Students entering 2nd grade)

Bonkers for Book Reports**Instructor: Ann Blackmon**

Fee: \$50.00

Max. # of Students: 15 (Must have 6)

In this workshop, students entering the second grade will learn to do a creative book review. They will also complete all of the required summer reading book reports. Art activities will be done, and prizes will be awarded!

Date: July 13-17

Time: 1:00-3:00

Students: Rising 2nd graders

(Students entering 2nd grade)

Math Review for Students Entering 3rd Grade

Instructor: Ann Blackmon

Fee: \$50.00

Open to **any** student entering **3rd grade** - 2018-2019 school year
(Must have 6)

REVIEW!!! This workshop is a review of the most important math skills taught in second grade!!! Students entering 3rd grade will review basic addition and subtraction facts, addition and subtraction regrouping (borrowing and carrying), multiplication, division, time, money, measurement, and other concepts *VITAL* to math success in third grade!!! Practice pages will be available for home use as the 2020-2021 school year approaches.
